## About FICCI Innovation Summit 2025

Marking its 6th edition, the FICCI Innovation Summit stands as one of India's leading platforms at the intersection of business, innovation, and human capital transformation. Curated by the FICCI National HR Committee, this year's summit brings to the fore a powerful new theme - "Purpose, People, and Possibility: The HR Trinity."

In an era shaped by constant disruption and shifting priorities, organizations must recalibrate how they lead, engage, and innovate. This edition of the summit explores how purpose-driven leadership, people-centric strategies, and an unwavering belief in human possibility can create workplaces that are not just efficient - but truly exceptional.

With inspiring keynote addresses, interactive panels, and deep-dive sessions, the Summit will spark conversations that help businesses build with intention, lead with empathy, and innovate with impact.

We invite leaders, thinkers, and practitioners across industries to come together and chart a bold path toward the future of HR - rooted in values, powered by people, and focused on possibility.
